Kishore K

Summary

Creative programmer and graphic designer dedicated to developing innovative software solutions and visually engaging designs. Seeking to utilize my technical and artistic skills in a collaborative environment to enhance user experience and deliver impactful projects.

Experience

actively participated in various technical events, including a Web Designing Workshop at TECHNOVIT, where I gained hands-on experience in modern web development. Additionally, I secured 3rd place in QUIZMANIA (Kahoot), demonstrating strong analytical and quick-thinking abilities. Furthermore, I participated in the prestigious Smart India Hackathon, collaborating on innovative solutions to real-world challenges.

Education

Bachelor of Technology, Artificial Inteligence & Machine Learning , Mahendra Institute of Technology

May 2022 — May 2026

SSLC & HSC, Kongu Vellalar matric higher Secondary School

Jan 2020 — Jul 2022

Project

1.Advanced Attendance System using Facial Recognition, Pyhton, OpenCV.
- Implemented live face tracking and attendance using Opencv.
- Developed automated Excel reports using the CSV(pkg).
- My contribution reduced time and effort spent in attendance taking.

2.E-Commerce Website, HTML, CSS, Bootstrap Javascript, React js.
- Created a Landing Page for Timeless Trends.
- Implemented Bootstrap library in CSS.
- This website increased customer walk-in(s) by 28%
